Woodstock, Vermont, Sept 7th 1898.

My dear friend,

Your postal of the 2^d writing me, "should you wish a greater number of the H.J.s of that issue, I can get them for you." therefore make bold to ask you, to send me six more in wrappers, and enclose the postage for the first six copies, and for six more; when we meet I will tell you, the high praise from all, your piece has received, but what I wait in patience for, from your head and heart, is when your dear hus'^d and self see it all (both words underlined twice), & meet the Pres, Dr. Brandt V. B. Dixon. I hope to have you meet my dear friend Mrs Dr T.G. Richardson, who joins us here on the 12th, and will go to N.Y. with us, She is one of the Vice Regents of the Mount Vernon Assoⁿ and a Principal in the Women's Board of Missions, and must[^] be in Washington the first of October.

I do want you to see her while in New York. I do hope you have had some relief in the weather, it has been fearful everywhere, the great heat and humidity. I am glad to know your dear hus'^d bore it so well and Mrs. R_ also. Mr C, sends warm greetings to Mr. P_ with my love

and much to your dear self
from as ever Jo.LN
